03

Surface preparation & application

Application on smooth hull surface
Cleaned by solvent based cleaner
Apply the film from bow to stern
& heat the film

04

Trimming & softening

Carefully cut the film to shape around fittings
Reinstate removed hardware
Seal the edges, soften the whole surface for a perfect shape

05

Finishing

Striping and boat surface evaluation
Wait 24 hours only before the boat can go back in the water
Showcase your new unique look!

EASY PROCESS

KEY BENEFITS

"ONLY ECONOMICAL WAY TO
**REDESIGN AND
PROTECT!"**

UNIQUE CUSTOMIZATION

Only limit is your imagination.

COST EFFECTIVE

Fragment of paint costs.

EASY MAINTENANCE

No buffing or polishing required.

FAST APPLICATION

Days, maximum weeks.

SAVE AND PROTECT

Preserving paint and value.

INCREASE RESALE

Like new look, second hand market.

MATERIAL FEATURES

- ☒ UV AND TEMPERATURE STABLE
- ☒ DISTINCTIVE-LOOKING FINISHES
- ☒ EXCELLENT RESISTANCE TO WATER
- ☒ EXCELLENT CONFORMABILITY
- ☒ RESISTS OCCASIONAL FUEL SPILLS
- ☒ EASY REMOVABILITY

M/Y AURA

CASE STUDY

120' motor yacht 'Aura' was built in 2006 by Benetti.

Aura's interior sleeps up to 10 guests in 5 rooms, including a master suite, 2 double cabins and 2 twin cabins.

CASE STUDY

CUSTOMER BRIEF

Aura's crew come up with desire to refurbish interior in entire crew's area. But the budget was not unlimited. Primary goal of this realization was to completely change look and feel of years old and damaged wooden interior / furniture.

Crew cabins were too dark and for sure not cosy enough to spend any free time there. Together with crew we choose elegant light grey "Nuno-Textile" design. In total we wrapped 4 cabins and corridor with stairs.

This all in 14 days only!

PROCESS

VINYL vs WOOD REFURBISHMENT COMPARISON

METHOD	WOOD REFURBISHMENT	VINYL WRAP
TIMING	60 days	14 days
COST	53 000 EUR	14 990 EUR

PAINT COMPARISON

"WE TALK ABOUT FRAGMENT OF TIME
AND **COST VS. PAINT!**"

Comparison	PAINTING	VINYL WRAP
 Installation time	<ul style="list-style-type: none">- need to be planned in advance- out of water required- complex surface preparations- out of commission for long period of time	<ul style="list-style-type: none">- painless preparation process- some realizations can be done directly in water- surface preparations (easier than painting)- specific realizations can be done during operating season
 Costs	<ul style="list-style-type: none">- huge costs of preparations- expensive painting costs- long time period	<ul style="list-style-type: none">- no infrastructure and hidden costs- less costly high-quality material- save time and increase value
 Changes / repairs	<ul style="list-style-type: none">- every change or repair needs to be done out of water- special preparations	<ul style="list-style-type: none">- quick changes and simple repairs- can be done in days- no need for repairing entire surfaces
 Risk / issues	<ul style="list-style-type: none">- orange peel effect- blooming / blushing- overspray dryspray- exposure damage	<ul style="list-style-type: none">- chemical pollution- mechanical damage

APPLICATION TIME

PAINTING

Book a slot with the drydock / boatyard, slip the yacht, clean, sand, prime, surface preparation and then long painting process.

VINYL WRAP

Application is much quicker without lengthy preparation time.

45% COSTS VS. STANDARD
